SUMMARY

Driven professional experienced in creating full-stack web applications seeking a Web Developer position in an environment that continually embraces new technologies and fosters innovative ideas.

EDUCATION AND TRAINING

Full-Stack Web Development Certificate

University of Minnesota 2018

Minneapolis, MN

- Graduate of an intensive 6 month coding bootcamp based out of University of Minnesota College of Continuing Education involving in-class teaching through an extensive curriculum using JavaScript, Node.js, Express.js, jQuery, AJAX, RESTful APIs, React, MySQL, and Mongo DB.
- Developed a portfolio of full-stack web applications through individual and group effort

Bachelor of Arts Biology

University of Minnesota Twin Cities 2016

College of Liberal Arts, Minneapolis, MN

EXPERIENCE

QA and Committee Assistant Minneapolis, MN

University of Minnesota Clinical Trials Office/ Nov 2017 - Present

- Assist the Data Safety and Monitoring Council with analyzing clinical trial data to maximize data integrity and patient safety
- Quality review all clinical data including Serious Adverse Events (SAEs), accrual rates, study status changes, and monitoring findings
- Co-manage the Cancer Protocol Review Committee to ensure scientific merit of trials, evaluate trial accrual, and oversee trial resource allocation
- Correspond with Principal Investigators and other staff regarding trial management
- Attend monthly DSMC meetings and bimonthly CPRC meetings to review clinical trials and record committee decisions

Claims Specialist Minneapolis, MN

Park Nicollet Health Services/ Aug 2016 - Jul 2017

- Ensure accuracy of provider billing information submitted on health insurance claims
- Problem solve a large volume of claim denials to recover reimbursement from third party payers (e.g. Blue Cross, Medicare)
- Determine financial adjustments on patient accounts
- Perform data analysis on exported claims data via Excel and MS
- Provide customer service regarding patient account balances and insurance billing
- Decreased volume of a queue by 30% after developing an updated invoice deferral system

Pharmacy Technician Eagan, MN

Walgreens/ Nov 2016 - Jun 2016

- Work closely with pharmacists and technicians to accurately and efficiently dispense prescriptions in a high volume pharmacy (500+ rx/day)
- Verify health insurance eligibility and resolve complex insurance rejections
- Provide excellent customer service to patients and healthcare providers
- Perform data entry of prescriptions by computer

Research Assistant Minneapolis, MN

UMN Masonic Cancer Center/ Mar 2013 - Mar 2014

- Collaborate on a biology research project to study the role of p53 gene knockouts in the development of small cell lung cancer in mice models
- Perform laboratory tests to produce data to support scientific investigations
- Troubleshoot and revise experimental techniques as needed
